MEMORANDUM FOR: [REDACTED] USSR Branch, Geography  
Division, OBGI

THROUGH: Chief, Geography Division, OBGI

THROUGH: Chief, USSR Branch, Geography Division, OBGI

SUBJECT: Your Request for Approval to Publish Book  
Review in Professional Journals

The book review is objective, well written, and contains no classified information. However, I cannot concur in your request for approval to publish in a professional journal based on two points, (1) a similar review was issued by OBGI in the form of a Map Notice (Official Use Only), and (2) the review of a Soviet publication by an Agency employee who is directly involved in Soviet matters with identification to place of employment seems to be needlessly provocative.
